

NORTH EAST ASSOCIATION OF RAIL SHIPPERS

The North East Association of Rail Shippers is a professional organization dedicated to improving the lines of communication between railroads, suppliers, and shippers. Conferences are well attended and generally include presentations and opportunities for discussion with Class I railroads, regionals, and shortlines. In addition, NEARS invites shippers who have experienced or achieved new innovations in management or logistics, as well as suppliers of services who facilitate efficient use of railroads and intermodal transport modes.
