

Surviving the Storm

David Giandinoto

Director Transportation Service
Union Pacific

Feb 2009 SWARS

BUILDING AMERICA[®]

Overall Impact

- **Rail infrastructure**
- **On track equipment**
- **Signal/Communications**
- **Debris**
- **Personnel**

Prior to Landfall

- **Relocation of inventory**
- **Preposition recovery resources**
- **TIH**
- **Tie down and secure**
- **Establish Command Center**

Recovery

- **Crews were available as needed**
- **1700 Generators deployed**
- **Major terminals operational 48 hours post landfall**
- **All routes open 72 hours post landfall**
- **Normal operations within 10 days**

Lessons Learned

- **Hurricanes tend to turn right!!!!**
- **TIH shipments halted sooner**
- **Power lines primary concern**
- **Overall Customer communication**
- **Open Routes in terminal first**
- **Key interlockers require fixed generators**
