

## THE DEBATE CONTINUES.....

“If we can’t earn an adequate return on capital because of re-regulation, we will spend less and I don’t think that’s a good thing for the country”

*Mike Ward, CEO CSX Railroad – Railway Age, January 2009*

“This bill will provide real reform and address the problems that exist for shippers held captive to one railroad; problems such as bottlenecks, paper barriers and the STB's outdated processes and procedures. It will strengthen competition and oversight”.

*Jena Longo, Deputy Communications Director  
Senate Commerce Science and Transportation Committee  
Journal of Commerce , December 2009*

"Without additional changes we cannot support this bill - I hope common sense prevails".

*Jim Young, CEO Union Pacific – Journal of Commerce, February 2010*
